# ART INDEX

ART INDEX  
A GUIDE TO THE ARTS  
AND LITERATURE  
OF THE UNITED STATES  
AND FOREIGN COUNTRIES

PRINTED IN THE UNITED STATES OF AMERICA

This volume has been supplied on a contract which provides that it is not to be sold or given away without the permission of the publishers.

## PREFACE

This sixth permanent cumulation of the Art Index covers the period from October 1944 to September 1947. In addition to the regular indexing of American and English publications it includes the indexing of the following foreign periodicals which were suspended or could not be shipped during the war years:

Arts (formerly Beaux Arts)

Brussels. Musees Royaux d'Art et d'Histoire. Bulletin

École Française d'Athènes. Bulletin de Correspondance  
Hellénique

Emporium

Mouseion

Nederlandsch Historisch Instituut te Rome. Mededeelingen

Revue Archéologique

Revue Belge d'Archéologie et d'Histoire de l'Art

The Marburger Jahrbuch for 1938-1939 and 1944 has also been loaned to us through the courtesy of the Allied Military Government, and is indexed in the December, 1947 issue of Art Index. Publishers of those periodicals which were issued continuously during the war, have been kind enough to forward back issues whenever possible, so that the indexing is relatively complete.

This cumulation is published thru the cooperation of many people, each person being responsible for certain phases of the work. Most of these people must remain anonymous, although their various contributions toward the completion of the cumulation were necessary and are appreciated.

Sarah St John, former editor of Art Index, was responsible for the first annual volume of this cumulation. Margaret Furlong as manager editor and indexer, Sophie Karavia as reviser, and Lelo Walter Bauer, in charge of work on names, have done the difficult and detailed work on the present volume. It is through their efforts especially that the cumulation has been successfully completed.

BEATRICE B. RAKESTRAW

**Note**—Some additional periodical references on all subjects are taken from International Index to Periodicals and Readers' Guide to Periodicals. In these entries titles of the periodicals are not abbreviated.

# Suggestions for the Use of this Index

## Arrangement

Authors and subjects are arranged in one alphabetical file. Under authors and subjects, titles are filed by the first word, initial articles being disregarded. Under personal names titles *by* an author precede those *about* him. Subdivisions of a subject are arranged alphabetically or chronologically under the subject, country subdivisions following the form subdivisions. Under some subjects the arrangement has been by town or locality, as in Bank buildings; state subdivisions under Architecture, Domestic, etc.

## Collation

Following the title are noted the kind of illustrations which accompany the article, (in abbreviated form) and also any bibliographies or bibliographical footnotes of importance. Only that collation which pertains to the heading under which an article is listed is given in that entry. For example, under an author's name, the only items given are portraits and bibliography unless the author is the illustrator, while under the subject is given plates, plans, etc., but not the portrait of the author.

## Exhibitions

An exhibition of an individual artist is indexed under the artist's name whenever biographical or critical information is given.

## Illustrations

Titles of works of art (up to ten) accompanying the text of an article are listed in a note unless they appear in the title of the article or are not descriptive; in this case the number is given. Individual works by an artist, without text, are arranged by titles alphabetically under the subdivision Reproductions under the name of the artist. When the same title appears in more than one periodical, entries are combined under one title, the preference being given to the English form, or to the language of the artists.

## References

See references have been made from various forms of personal names and subject headings to authorized forms. See also references are made from subjects to related subjects.
